Question 046 | Question bank page 5 | Q.1

Write a C# program to create arithmetic methods Add(), Multiply(), Subtract(), and Divide(), and invoke them using delegates.

Project type: C# Console Application

Steps to perform

1. Open Visual Studio and choose Create a new project.

2. Select Console App (C#), choose a project name and create it.

3. Open Program.cs and replace the sample code with the provided C# code.

4. Build the project; resolve any missing using directives or compilation errors.

5. Press Ctrl+F5, enter the required inputs, and verify the console output.

Closest supplied practical: code. Create methods add(), multiply(), subtract(), divide, with suitable parameters and call these methods using concept of C# delegate.

Source: Dot_Net_Practicals_1_to_5_.pdf

Provided creation instructions and source files

```
Creation steps: Create the Console app named Arithmetic. Add the listed files at the locations below
and enter the
corresponding code.
Filename: Program.cs    Location: Project root
using System;
namespace Arithmatic
{
    public delegate void Calculation(int a, int b);
    class Arithmetic
    {
        public void Add(int a,int b)
        {
            Console.WriteLine("Addition=" + (a + b));
        }
        public void Subtract(int a,int b)
        {
            Console.WriteLine("Subtraction=" + (a - b));
        }
        public void Multiply(int a, int b)
        {
            Console.WriteLine("Multiplication=" + (a * b));
        }
        public void Divide(int a, int b)
        {
            Console.WriteLine("Division=" + (a / b));
        }
    }
    class Program
    {
        static void Main()
        {
            Arithmetic obj = new Arithmetic();
            Calculation c;
            c = obj.Add;
            c(20, 10);
            c = obj.Subtract;
            c(20, 10);
            c = obj.Multiply;
            c(20, 10);
            c = obj.Divide;
            c(20, 10);
            Console.ReadLine();
        }
    }
}
```

Expected result / verification

The application should meet the exact question requirements. Record actual output or screenshots after running; no execution has been claimed in this manual.
