Question 102 | Question bank page 10 | Q.1

Write a program using multicast delegate.

Project type: C# Console Application

Steps to perform

1. Open Visual Studio and choose Create a new project.

2. Select Console App (C#), choose a project name and create it.

3. Open Program.cs and replace the sample code with the provided C# code.

4. Build the project; resolve any missing using directives or compilation errors.

5. Press Ctrl+F5, enter the required inputs, and verify the console output.

Closest supplied practical: } } Write a program using multicast delegate

Source: Dot_Net_Practicals_1_to_5_.pdf

Provided creation instructions and source files

```
Creation steps: Create the Console App named Multicast. Add the listed files at the locations below
and enter the
corresponding code.
Filename: Program.cs    Location: Project root
using System;
public delegate void Demo();
class Test
{
    public void Show()
    {
        Console.WriteLine("show method called");
    }
    public void Display()
    {
        Console.WriteLine("display method called");
    }
    public void Print()
    {
        Console.WriteLine("print method called");
    }
}
class Program
{
    static void Main()
    {
        Test t = new Test();
        Demo d;
        d = t.Show;
        d += t.Display;
        d += t.Print;
        d();
        Console.ReadLine();
    }
}

Create a class BankAccount with AccountNumber and Balance. Implement property for
```

Expected result / verification

The application should meet the exact question requirements. Record actual output or screenshots after running; no execution has been claimed in this manual.
